

1) What is the Bible? What does it mean that the Bible is the living word of God?

2) How do you reconcile scientific evidences and the truth of creation, as we interpret scripture?

3) Based on the readings for the week:

a) What is the distinction between Genesis chapter 1 and Chapter 2?

b) When God sends the flood in Genesis 7 and 8, there is an outcome and a promise, name them both.

c) In Romans, Paul talks about Adam and Christ, what is his point (as it pertains to re/creation)?

d) what are some scriptures you found that mention creation outside of Genesis 1 & 2?

Readings for this week:

Genesis 1-2

Genesis 7-8

Psalm 24

Read Romans 5:12-21

4) Questions regarding the teaching or the readings? Please submit at least 1 question per person, attach their name to each question please. Remember, there are no stupid questions.

5) Practice the first act of God's story in creation, think about the principle of what God showed us in the first creation story...on the 7th day God rested. How do you practice the truth that God rested? and that we are to work from rest instead of the other way around? (if you struggle with this, you are normal) What might you do to live into this more?
